

*Growth through golf,
one recycled club at a time.*

We are pleased to bring back the ***Spare for Change Frost Creek 100 Holes of Golf*** fundraiser event.

The purpose of this event is to support Spare for Change, Inc., a 501(c)(3) founded in 2011 by David and Susan Havens. The mission of Spare for Change is to help grow the game of golf by putting unused, recycled golf clubs in the hands of new players of all ages and experience levels. Recycling clubs was the foundation in which Spare for Change was built, to teach golf and the greatness of the game.

This event resembles a charity walk style fundraiser only we are playing 100 golf holes versus walking miles. All four of your Frost Creek PGA Golf Professionals will be raising money by playing in the event. We will begin the challenge at 5:00am on Tuesday, August 17th.

Spare for Change's mission is growth through golf. Golf brings together families of all generations to spend more time together, underprivileged to be exposed to a game that can take them places and gives opportunities to professionals of all disciplines. If you want to learn, we will help put the tools in your hands to make that happen.

Spare for Change, founded in Hawaii and now based in Eagle, Colorado, also has locations in Virginia, California, and Canada. Since 2011, we have collected and redistributed 33,000 clubs from existing golfers' garages into the hands of new players.

Donations for this fundraiser can be an amount per completed hole or a set amount donation. The ***Frost Creek 100 Holes of Golf*** is our largest fundraiser of the year and will help the non-profit with all the operations needed to make the game a better place. If you are interested in supporting the event, please contact David Havens, PGA at the Frost Creek Golf Shop, or by calling 808.298.8012 and/or by emailing david@spareforchange.org. For more information, visit www.spareforchange.org.

Thank you in advance for your consideration and we look forward to growing ***Spare for Change Colorado*** here in Eagle County.
